### Welcome to Jabiru

In welcoming new residents to Jabiru it is important to acknowledge the Traditional Owners of this land, the Mirarr people. We sincerely hope that residents of Jabiru who do not have a traditional connection with this area develop an understanding of, and respect for, the cultural and natural heritage, which envelops our unique town.

In 2021, after 40-years of dispossession, the land was handed back to the Mirarr Traditional Owners. As the Township Entity, Gundjeihmi Aboriginal Corporation Jabiru Town (GACJT) represents the Mirarr Traditional Owners for all issues related to Jabiru. GACJT administers the land tenure over Jabiru in accordance with the Township Lease and has a formal role under the Jabiru Town Plan to ensure compliance with the Jabiru Masterplan. The Jabiru Masterplan provides the broad Vision that the Mirarr Traditional Owners have committed to for the future of the town. The adoption of the Jabiru Masterplan has provided crucial planning certainty for government and private industry and is the keystone document for all planning and development. Jabiru is a small but diverse community, privileged by its location in a World Heritage listed area. The benefits of living in such an environment place important responsibilities on residents and visitors.

#### FOREWORD

Welcome to Jabiru! We hope that you will find this guide useful in making the transition to a new location a little easier. Jabiru is situated on a 13 square kilometre lease within a World Heritage listed area, Kakadu National Park, and is located approximately 250km south-east of Darwin via the Arnhem Highway.

You will certainly find Jabiru and the surrounding area unique in many ways.

The town is unique in that it is located within Kakadu National Park, is surrounded by, and located on, Aboriginal Land in a region internationally recognised for its environmental and cultural values. Living in a World Heritage listed area places some unique obligations upon Jabiru residents in addition to approvals required through GACJT. As a consequence, the Kakadu National Park Management Plan outlines environmental, social and economic controls. These controls cover development, plants and animals, The information in this book is designed to assist new residents in Jabiru to gain an understanding of their responsibilities and to encourage them to take advantage of the attractions Jabiru and its surrounds have to offer.

The town offers a range of services for children and youth. Services include the Jabiru Childcare Centre, Jabiru Playgroup and of course Jabiru Area School, all of which provide opportunities for children to develop skills, education and socialise. A range of facilities such as the skate park, sporting ovals, olympic-sized swimming pool and gymnasium are available to enjoy.

There are a vast variety of sport and recreation choices for residents in Jabiru. The town enjoys well-maintained sporting facilities and dedicated residents and volunteers are always busy organising events, festivals and competitions. There is also Kakadu National Park and all the attractions it has to offer including fishing, camping, sightseeing, bushwalking, bird-watching and insight into a rich Indigenous culture.

The West Arnhem Wire is a fortnightly newspaper published by West Arnhem Regional Council. It is available for free from Jabiru Post Office, Jabiru Foodland, and from Regional Council offices and supermarkets in all major West Arnhem communities.

disturbance of soil and vegetation, tree preservation and disposal of waste.

Certain activities that would be considered normal in another town may be prohibited or restricted in Jabiru. We ask that you respect these regulations and always act responsibly.

During your time in Jabiru your involvement in community life will assist in enriching the lifestyle we already enjoy. We sincerely hope that you will enjoy your time as a resident of Jabiru.

#### **1.5 TELEVISION AND RADIO TRANSMISSION**

Jabiru receives transmission from the radio and digital free-to-air television stations listed (left). Television aerials, poles and brackets are generally your responsibility. Other paid television services are the responsibility of the tenant.

#### 1.6 DRIVERS LICENCE AND MOTOR VEHICLE REGISTRATIONS (MVR)

The Motor Vehicle Registry (MVR) makes periodical visits to the Jabiru Police Station located on Tasman Crescent opposite the Jabiru Town Plaza. Face-to-face MVR services are available. Please check the MVR website for their upcoming visits.

Australia Post retail outlets provide some MVR services including driver licence and car registration renewals where you have received a renewal notice with a barcode. Electronic transactions through MVR Quickpay online or the NT Rego App through your smartphone or tablet and by telephone on 1300 654 628. Visiting MVR Licence Testing Officers and Transport Inspectors attend Jabiru regularly for practical driving tests or vehicle compliance inspections. To make an appointment for a driving test or compliance check, please call 8999 3100 Monday to Friday between 8.00am and 3.00pm. Email mvr@nt.gov.au or visit Jabiru Police Station on Thursday between 8.00am and 3.00pm.

If you hold a licence from another state or territory and you are a resident of the NT, your licence is deemed invalid. To transfer your Australian issued Driver Licence to the NT, it must be current (or may be expired up to 5 years - a fee applies) at the time of transfer. To ensure that you remain licensed to drive, you will need to transfer your licence over to the NT within 3 months.

A motor vehicle registered in another state or jurisdiction may be deemed to be not registered, regardless of whether or not it has current registration in another state or jurisdiction, if:

- 1. You, as the owner are a resident of the NT, and the vehicle has been in the NT continuously for 28 days from the date of the vehicle arriving in the NT.
- 2. You are a resident of the NT, and you purchase an interstate registered vehicle, which has been in the NT continuously for 28 days.
- 3. You are an NT resident and you drive a vehicle-registered interstate that has been in the NT for a continuous period of three (3) months (so the vehicle is no longer classed as a 'visiting motor vehicle').

#### **1.7 ELECTORAL ROLL**

A change of address cannot be registered for electoral purposes until you have lived at your new address for one month. After one month's residency in Jabiru, you should complete an Electoral Claim form (available online from the Australian Electoral Commission from the Post Office and Council) to enable you to participate in Federal, Territory and Local Government elections. Enrolment forms are also available at the Council Office.

#### **1.8 RUBBISH REMOVAL**

All residents are allowed two wheelie bins which are owned by West Arnhem Regional Council. One has a red lid and the other has a yellow lid.

The red lid bin is for domestic household rubbish which is collected on Tuesdays of each week and the bin with the yellow lid is for recyclable rubbish and is collected every Thursday. Bins are collected between the hours of 7:00am and 3:00pm (unless otherwise advised).

The bins should be placed on the kerb before 7:00am on the day of collection. Residents must make their own arrangements to remove any rubbish other than household rubbish.

The Jabiru Landfill is open 24 hours a day and is located near the Jabiru Industrial Area. The facility is free for residential use; however charges apply for commercial dumping. There is a green waste facility located at the intersection of Jabiru Drive and Civic Drive.

Household residents may dispose of garbage or deposit recyclable materials in the marked areas at the waste disposal facility at any time. Bring your unwanted mobile phones and ink cartridges in to the West Arnhem Regional Council office in the Jabiru Town Plaza to be sent off to Clean Up Australia for recycling. For further recycling enquiries please contact West Arnhem Regional Council.

#### **1.9 INSURANCE**

As elsewhere throughout Australia, the tenant of a leased property is responsible for the insurance cover of his/ her own personal possessions against fire, theft, burglary, storm and tempest, etc. It is therefore recommended that tenants take out contents insurance as well as a householder personal liability policy. Certain household policies will also protect you against loss of items for which you are directly responsible. It is best to check with your employer regarding the items that you are responsible for in your leased residence.

### Climate

#### 2.1 THE SIX SEASONS OF KAKADU

Bininj/Mungguy (Aboriginal people of Kakadu) recognise six distinct seasons within Kakadu, as well as subtle variations that signpost the transition from one season to another (see Bininj seasonal calendar diagram below).

#### 2.2 THE THREE SEASONS OF THE TOP END

Across the Top End of Australia, including Kakadu, people recognise the following seasons:

#### THE DRY SEASON

The 'dry season' falls roughly between April and September. Temperatures range between 21°C and 33°C with low humidity and rain is rare. Most creeks stop flowing and floodplains quickly dry out. Visitor numbers are very high with many vehicles and caravans on the roads. All unsealed roads are usually open.

#### THE BUILD-UP

The 'build-up' to the 'wet season' is usually during October and November. Temperatures range between 24°C and 40°C and humidity is very high. Storm clouds often build in the afternoons with dramatic thunder and lightning. Occasional showers entice new growth on the dry land. There is a significant decline in visitor numbers during this season and many unsealed roads may close. The 'build-up' can be a difficult time for new residents and it may take some time to acclimatise. Care should be taken to avoid dehydration and heat stress.

#### THE WET SEASON

The 'wet season' usually falls between December and March. Temperatures range between 24°C and 36°C and humidity is high, with frequent heavy monsoon rains bringing welcome relief. This is the most dynamic time of the year. Creeks and rivers fill and overflow into the floodplains, bringing rapid new growth. With the increasing water levels, many areas within Kakadu become inaccessible, including most unsealed roads, creek crossings, and some sealed roads. Visitor numbers are low at this time of year. Residents are advised to contact Bowali Visitor Centre for up to date road conditions and access information.

#### 3.1 EMERGENCY SERVICES

SecureNT is the peak body for emergency management in the Northern Territory. The safety and lives of your family and your neighbours are of the utmost importance. You should:

- Place a list of essential services phone numbers in an easily accessible location
- Review with your family what to do in the case of fire or any other emergency
- Advise your employer of any fire damage, hazards or security issues
- Ensure you know how to use the fire extinguisher and fire blankets
- Check smoke detectors in your home regularly

#### **3.2 POLICE STATION**

The Jabiru Police Station is located on Tasman Crescent, across from the Jabiru Town Plaza. The front counter is open Thursdays only from 8.00am to 4.00pm.

In case of emergencies please call 000.

For non-urgent matters, please call 131 444. Please call the Jabiru Police Station (8979 2122) if you need to speak to a member of the station directly. Your call will be routed through to the Police in Darwin and if the problem is deemed to warrant police intervention, an officer from Jabiru will be 'called out' to the emergency.

#### **3.3 HEALTH CENTRE**

After hours call out emergency services are available seven days a week, (08) 8979 9900. Nursing staff are available for after hours emergencies.

#### **3.4 FIRE STATION**

The Jabiru Fire Station is located on the corner of Gregory Place and Leichardt Street.

The Station provides an after-hours service and will be contacted via the 000 operator to any emergency requiring a Fire Service response, as well as a 24/7 general enquiries phone number on 0409 694 533.

The Fire Station is a community station and welcomes visitors.

#### NORTHERN TERRITORY POLICE, FIRE AND EMERGENCY SERVICES, JABIRU POLICE STATION

#### **SIREN SYSTEMS**

- Know your local siren warning system
- Jabiru has an early warning system in place
- Siren is tested every Monday at 6.00pm
- The siren will be used if communications have failed and a crew is required

SecureNT provides up-to-date emergency alerts and warnings from the Bureau of Meteorology (BOM), NT Police, Fire and Emergency Services (NTPFES), Road Report NT, Power and Water and Bushfires NT.

#### **CYCLONE THREAT**

If Jabiru is under threat the siren will be activated at least two hours prior to the threat. The siren will sound for one minute then stop.

People will have to decide whether to remain in their homes, current location or evacuate.

Read the the Jabiru Local Emergency Plan: pfes.nt.gov.au/emergency-service/emergencymanagement

For further information on cyclone preparedness and safety procedures please see page 63.

### **Safety information**

#### **4.1 FIRE EXTINGUISHERS**

The accommodation provided by some employers comes equipped with fire extinguishers and fire blankets. Residents should be familiar with their usage. If your home is not equipped with either a fire extinguisher or a fire blanket, it is highly advisable to speak to your employer about having these installed.

#### **4.2 SMOKE DETECTORS**

All domestic accommodation in Jabiru should have smoke detectors installed and working correctly. If you don't have a smoke detector contact your employer or accommodation person for installation.

Ideally all your domestic accommodation smoke detectors should be tested weekly. This is done by simply using the end of a broom handle to reach the detector and press the button underneath the detector until it makes a loud piercing noise, remove the broom handle and the noise will stop, test completed. If it does not make a noise when tested, contact your employer or accommodation person immediately.

If your detector is beeping this will indicate the battery is flat and needs to be changed (small 9 volt battery).

It is recommended that all domestic smoke detectors follow the current NT legislation requirements. At the present time they are recommended to be of the Photo Electric type with either a 10 year lithium battery or hard wired with a backup battery.

Any enquires please call the Fire Station on (08) 8979 2502 to speak to the Officer-in-Charge.

Remember, April 1st is the nominated day to change all domestic accommodation smoke detector batteries.

#### 4.3 HOUSEHOLD POOLS & SPAS

Children, especially those under 5 years of age, can drown in very shallow water. Between 1992 and 2022, 17 children aged 0-4 years drowned in portable pools in Australia. In 2020, NT Consumer Affairs published an article in 2020 stating that "on average one child dies from drowning in a portable pool every year, with others needing hospital treatment and some suffering permanent brain damage."

Before you consider buying or setting up a portable pool/spa, ensure that you advice your landlord and check compliance under the Swimming Pool Safety Act 2004 (NT) (Act) applies. This Act mandates that all swimming pool, spa, inflatable or any recreational aquatic vessel that holds more than 30 cm of water must have compliant pool fencing or, for spa pools, a certified, solid, lockable spa lid.

#### 4.4 DRIVING

Driving in the Top End can be challenging due to animals, changing road conditions, unsealed and often corrugated road surfaces with soft edges, smoke from fires, flash flooding and slippery roads caused by heavy rains. Try to avoid driving at night, look at depth markers and observe water flow before crossing flooded roads and always drive for the conditions. When stopping your vehicle along the roadway, use your hazard lights and pull up well off the road. Do not park on bridges or causeways.

Check with your employer regarding the rules when driving company vehicles. It is recommended that drivers do not use cruise control while driving on wet roads. Take a break at Corroboree Park or the Bark Hut when travelling between Jabiru and Darwin. Fuel is available at those break stops. Please note, Mary River Roadhouse is closed. Notify your family that you have arrived at your destination. Road conditions can change rapidly, particularly in the wet season. Always check road conditions before travelling by calling (free call) 1800 246 199, checking the road report online at https://parksaustralia.gov.au/kakadu/access/ and https:// roadreport.nt.gov.au/.

#### **DID YOU KNOW?**

"Large saltwater crocodiles can stay underwater for at least one hour because they can reduce their heart rate to 2-3 beats per minute. This means that crocodiles can wait underwater until they see prey, or if people are using the same spot regularly, the crocodile can wait underwater until someone approaches the water's edge."

Check out <u>https://nt.gov.au/</u> <u>emergency/community-safety/</u> <u>crocodile-safety-be-crocwise</u> for more crocodilian facts.

#### 4.5 CROCODILES

Kakadu is crocodile country. Crocodiles are an essential part of the Kakadu ecosystem. Estuarine (saltwater) crocodiles (Crocodylus porosus) inhabit all lowland waterways in Kakadu including freshwater and tidal rivers, floodplains, billabongs, coastlines and open seas. Estuarine crocodiles are apex predators. They can be extremely aggressive and have attacked and killed people in Kakadu. Freshwater crocodiles (Crocodylus johnstonii) inhabit freshwater rivers and billabongs. They are shy animals but can become aggressive if disturbed.

Crocodiles were hunted almost to extinction between the 1940s and 1960s. Following their protection in 1971 and increased habitat recovery, crocodile numbers have increased dramatically and continue to rise back to precontact population numbers. They continue to move further inland into all freshwater areas, re-establishing their presence in inland waterways and posing increasing risks to humans.

Due to the risks posed particularly by estuarine crocodiles, swimming is not permitted in most of Kakadu. Certain areas in Kakadu are designated 'crocodile management zones'. Before opening these areas to visitors after the end of each wet season, park rangers take all possible measures to detect and remove crocodiles, then monitor these sites throughout the dry season. While these measures greatly reduce the risk of crocodile presence and attacks, crocodiles can move into these areas undetected at any time. Swimming is always at your own risk. The only swimming areas in Kakadu guaranteed to be crocodile-free are Jabiru public swimming pool and hotel/ caravan park swimming pools. Please report any crocodile interactions, near misses or potential crocodile risks by calling Bowali Visitor Centre, NT Parks and Wildlife Commission or NT Police as soon as possible. Please note, rangers have removed crocodiles from the Jabiru Lake.

For more information about crocodiles in Kakadu, see: <u>http://www.parksaustralia.gov.au/kakadu/pub/crocodile.pdf</u>

#### 4.6 STORMS

Storms are frequent during the wet season. Take appropriate actions, such as unplugging electrical goods and supplying your own surge protection to protect electrical goods from damage. Landline telephones should not be used during electrical storms. PowerWater provide storm season preparation information. Check out www.powerwater.com. au for information on cyclone and storm safety and Get Set for the Wet.

#### 4.7 SNAKES

Kakadu is home to a wide variety of both venomous and non- venomous snakes. It is illegal to handle or interfere with any wildlife, including snakes, within Kakadu. If you find a snake in your home, open doors and it will most likely exit of its own accord. If this fails and you are concerned, contact Bowali Visitor Centre for further advice and assistance. If you find a snake in your yard, give it a wide berth - it is usually just passing through. To minimise the chance of snakes moving into your yard, keep it clear and mow the grass regularly.

#### **4.8 BOATING AND FISHING**

Fishing and boating can be dangerous in Kakadu. Please see the Fishing and Boating section on page 25 of this handbook for specific regulations and important safety information.

#### 4.9 CYCLONES

For further information on cyclone preparedness and safety procedures please see page 63.

#### 4.10 HEAT STRESS

Owing to the hot and humid climate, most people need to drink between three to five litres of water per day (or more if exploring Kakadu), not counting coffee, tea and alcohol. It is recommended that you limit your outdoor activities to the cooler parts of the day (mornings and late afternoons), drink plenty of water and wear sunscreen. A tip to remember is that if you are feeling thirsty, you have already become partially dehydrated. Early signs of dehydration are feeling thirsty, headache, dizziness and nausea. Some people may also become irritable. If you feel these symptoms yourself, or notice it in others, encourage a rest in a cool place and drink more water.

#### 5.1 HEALTH CENTRE

The Jabiru Health Centre is a remote community health centre situated in at 7 Tasman Crescent Jabiru. The Centre is managed by Red Lily Health Services and provides a range of services from Medicare Health assessments, acute emergency care and ambulance services to health promotion activities. Jabiru Health Centre operates under a nurse-led model, where the nursing staff play a key role in supporting GPs by conducting pre-screening and assisting with chronic disease reviews and care planning. Nurses and Aboriginal Health Practitioners (AHPs) provide advanced care following CARPA guidelines and collaborate closely with GPs to deliver comprehensive patient care. The GPs primarily see scheduled patients for health screening and planned care and those referred by the nurses and AHPs.

Services available also include:

- Health screening education and promotion
- Women and children's health
- X-ray
- Provision of services to outstations
- GP Services
- Aboriginal Health Practitioners
- Remote Area Nurses
- Medical certificates (during business hours, please note these cannot be backdated)

Visiting specialists also come to the Jabiru Health Centre intermittently. Referrals for specialist care can be made through the Health Centre clinical staff If you are a new resident in the Jabiru area, you are encouraged to come in and have a medical record commenced. A detailed brochure is available at the front reception. For all enquiries please call the Jabiru Health Centre on 89799 900. Please note: After hours call-out emergency services are available seven days a week. Doctors are not on duty on weekends or public holidays. Nursing staff are available for emergencies only during this time.

Please note nursing staff work a full day in addition to being on call, there is no dedicated night or evening shift.

#### **5.2 HEALTH STORE**

The health store is located in the Jabiru Health Centre for scripts and general merchandise. Prescription medication is not stocked on-site. Please provide prescriptions to staff by 1.30pm to ensure prescriptions are available for pickup on the next business day. EFTPOS is available.

#### **5.3 RED LILY HEALTH BOARD**

The Red Lily Health Board was formed in 2008 and incorporated in 2011, to empower Aboriginal people of the West Arnhem communities and Outstation related to Minjilang, Warruwi, Jabiru and Gunbalanya, to address health equity. This includes enhancement of health service delivery and the provision of leadership and governance in developing an effective primary health care service.

Transition of NT Government services at Gunbalanya and related Outstations will likely occur min. 2025.

The Red Lily Health consists of 7 Aboriginal Directors, each representing various lands: Minjilang, Warruwi, Cobourg Peninsula, Jabiru, Kakadu Homelands, Gunbalanya, and Gunbalanya Outstations. There are also 3 Independent Directors with various specialties to assist the Board.

Red Lily Health Board is based in Jabiru and has a business office in Woolner. We have a monthly newsletter, so be sure to let us know if you'd like to receive this by emailing <u>admin@</u> redlily.org.au.

Please feel free to visit our offices and our website: <u>https://</u> redlily.org.au/

#### 5.4 WATER

Jabiru is supplied with quality drinking water produced from artesian bores. Artesian water has naturally high calcium content. This may cause a scale build-up on kettles, taps and showerheads, and may also leave a mark on vehicles after washing. Avoid overspray from sprinklers on windows and vehicles, and prevent calcium marks forming by drying surfaces with a soft cloth. Residents are encouraged to conserve water supplies by watering gardens in the evening when the soil is cooler.

West Arnhem Regional Council is responsible for the production, treatment and mains reticulation of water for Jabiru. The water is regularly submitted by Council and tested by the NT Government.

Water produced from three bores situated near Nanambu Creek on the Arnhem Highway is pumped to a storage tank and then to a water tower on Castenzoon Street, from where it is gravity fed to the town.

Water supply issues should be reported to West Arnhem Regional Council.

#### **5.5 PEST CONTROL**

The 'Top End' is a tropical climate and pests such as cockroaches, spiders and ginger ants come with the Territory. Some household pests can be controlled with baits, which can be purchased from Foodland. There are also regional pest control companies that service Jabiru and surrounding areas.

#### 5.6 DENTIST

To find out when a visiting dentist is heading to Jabiru, please call the Jabiru Health Centre.

#### **5.7 MOSQUITOES**

Jabiru has a high number and variety of mosquitoes throughout the year. Mosquitoes around Jabiru may carry viruses including Ross River, Barmah Forest, Japanese Encephalitis and Murray Valley encephalitis. A vaccine is available for Japanese encephalitis <u>only</u>. It is recommended residents take the following precautions to avoid mosquito bites:

- Avoid areas with high mosquito activity, including damp, dark spaces, coastal swamps and mangroves
- Avoid being outdoors between dusk and dawn when mosquitoes are most active
- Wear light coloured clothing with long sleeves, long trousers and socks in areas of mosquito activity
- Residents may choose to supplement protective clothing with mosquito repellent containing DEET
- Use mosquito coils or mosquito lanterns in outdoor areas around the home
- Reduce opportunities for mosquitoes to breed in outdoor areas by removing or covering containers and puddles of sitting water.

#### **5.8 MELIOIDOSIS**

Melioidosis is a serious disease caused by bacteria called Burkholderia pseudomallei, which live in tropical soils and water. Heavy rainfall brings them up into surface water and soil, where they can be picked up by the wind and spread in the air. It is important to wear shoes outdoor to minimise risk.

Melioidosis requires urgent medical attention as it can be fatal if not treated with the right antibiotics.

### Restrictions

#### 6.1 ALCOHOL

It is advisable to inform any of your visitors, who may be planning to purchase takeaway alcohol in Jabiru, to purchase it prior to coming to the area. Take-away alcohol is restricted in Jabiru with the following conditions:

- The Jabiru Golf Club is the only alcohol take-away outlet in Jabiru
- Only members of the Jabiru Golf Club are allowed to purchase take-away alcohol at the Golf Club
- Alcohol take-away is restricted to one bottle of wine or spirits and one carton of beer per member, per day at the Golf Club
- Alcohol is not to be purchased at the Jabiru Golf Club and then given or sold to non-members. Harsh penalties apply.

The following restrictions apply to all residents and visitors of Jabiru:

- The Jabiru township and a few small areas are exempt from restrictions, but it is important to know where and when you can drink alcohol.
- Drinking alcohol while fishing at the billabongs and creeks in Kakadu is prohibited.

There are a number of licensed premises in Jabiru where alcoholic beverages can be purchased for consumption on the premises with the following restrictions:

- The Jabiru Golf Club: Must be a member or signed in as a guest
- The Aurora Kakadu Lodge: With a meal only or as a bona fide lodger at the premises
- Mercure Kakadu Crocodile Hotel: During licencing hours

#### 6.2 PERMITS AND ABORIGINAL LAND

Jabiru is located on Aboriginal land and within the Mirarr Clan Estate. It is expected that all residents and visitors will respect Aboriginal culture and maintain a positive relationship with the local Aboriginal people within Jabiru and from the surrounding communities. An Aboriginal community in Jabiru is located on the western side of Jabiru Lake and is known as Manaburduma. Access to Manaburduma is restricted.

There are many places in Kakadu National Park where access is restricted. These places are clearly marked with appropriate signage. Please avoid these restricted areas, as they may be Aboriginal communities, private living areas, or significant Aboriginal sites.

In accordance with Native Title Rights, traditional owners and other relevant Aboriginal people continue to hunt and carry out other cultural activities within Kakadu National Park. These rights cannot be transferred to others. This means that even in the presence of recognised traditional owners, certain activities (e.g. pig hunting, fishing in restricted areas, etc.) remain prohibited to all people other than Native Title Right holders.

Manaburduma and Kakadu National Park (excluding Jabiru Township and some managed campgrounds) are declared Prescribed Areas under the Northern Territory National Emergency Response Act 2007. Consequently, the following restrictions apply.

#### **NO LIQUOR**

It is an offence to bring, possess, consume, supply, sell or control liquor in a prescribed area without a liquor permit or licence.

It is not an offence to directly transport unopened liquor through a prescribed area provided you can clearly demonstrate your destination is outside the prescribed area.

#### **PROHIBITED MATERIAL**

It is an offence to bring, possess, supply, sell or transport certain prohibited materials in a Prescribed Area.

Heavy penalties apply.

Entry into neighbouring Arnhem Land requires a Northern Land Council (NLC) permit. Permit applications can be lodged with the NLC Office in the Jabiru Town Plaza or by your employer for work-related entry.

Nuisance animals should be reported to Council administration on: **P:** (08) 8979 9444 E: info@westarnhem.nt.gov.au

#### 6.3 ROAD CONDITIONS AND ACCESS

For up to date information about road conditions and access throughout Kakadu, contact Bowali Visitor Centre. The Kakadu National Park Road and Access Report is updated regularly and is available at https://parksaustralia.gov.au/kakadu/access/, or check out the NT Road Report on https://roadreport.nt.gov.au/.

#### 6.4 ANIMALS

Because of Jabiru's unique location within the Kakadu National Park World Heritage area, a number of restrictions on animal ownership are in place to protect the natural values of the region. These restrictions are governed by the Kakadu National Park Management Plan and the West Arnhem Regional Council (Jabiru Town) By-laws 2024.

Residents are permitted to keep a maximum of two dogs per household. Fish which are native to the Magela Creek system can also be kept, however a permit is required to collect specimens for this purpose. Possession of cats and any other animal is not permitted and may attract a penalty, regardless of any other permits issued by the NT Government. For more information contact Kakadu National Park Headquarters.

West Arnhem Regional Council administers the West Arnhem Regional Council By-laws, under which a maximum of two dogs per household may be kept. All dogs are required to be registered and kept under effective control at all times. Council authorised officers may seize and impound offending animals and issue infringement notices for breaches of the By-laws. Copies of the by-laws may be obtained from the Council office in Jabiru Plaza or <u>www.westarnhem.nt.gov.au</u>.

The West Arnhem Regional Council and Parks Australia urge locals not to feed stray dogs in and around Jabiru. Rubbish bins also need to be secured to stop dogs scavenging through scraps.

#### 6.5 PLANTS

In order to protect Kakadu's unique ecosystems, the introduction of plants into Kakadu National Park, including into Jabiru for residential gardens, is restricted. A list of both approved and prohibited plant species for Jabiru residents is available from the Kakadu National Park website. All plants brought into Jabiru should be checked to ensure they are ant free. If you do find ants in a new pot plant from outside the park, please contact Kakadu National Park to arrange to have them identified. Jabiru residents can bring in sterilised potting mix for home gardens without a permit.

#### 6.6 FISHING AND BOATING

Fishing and boating are popular activities enjoyed by Jabiru residents. Due to Kakadu's status as a World Heritage listed national park, specific laws and regulations apply to fishing and boating which were created to protect the park's ecosystems. Fishing and boating are prohibited in certain areas of Kakadu; Northern Territory bag limits apply; and Kakadu-specific rules govern the use of fishing equipment and fishing behaviour.

What is permitted?

- Landing nets (for landing fish only)
- Single hook rigs and lures
- Fish caught in the park can be used as bait (though never as live bait)

What is not permitted?

- Nets, firearms, spears or traps
- Live baiting
- Processed bait (except in coastal areas)
- Taking crabs
- Commercial fishing
- Cleaning fish within 50m of a water body, unless in a designated fish cleaning facility
- Non-motorised boats
- Camping in vessels

Fishing and boating can be dangerous in Kakadu due to large numbers of aggressive estuarine crocodiles, strong currents, sand bars, submerged logs, and rapid changes in the weather. Some important safety tips:

- Remain vigilant and avoid crocodiles at all times
- Check weather forecasts and tide times
- Carry appropriate safety equipment
- Avoid boating at night
- Seek local advice where possible before heading out
- Carry an up-to-date EPIRB

For more information about fishing and boating in Kakadu, see: <u>http://www.parksaustralia.gov.au/kakadu/do/fishing-and-boating.html</u>

Kakadu National Park provides a very comprehensive fishing and boating park note containing Kakadu-specific fishing and boating regulations, maps indicating restricted waterways, boating safety and crocodile safety information. Download a free copy here: <u>http://www.parksaustralia.gov.au/kakadu/do/</u> <u>fishing-and-boating.html</u>

For detailed information about NT fishing regulations, see: <u>http://www.nt.gov.au/</u>

- Do not handle bats
- Bats are a protected species in the NT
- Action must be taken before colonies become established, not after
- In the initial stages, sprinklers in trees and loud noises (e.g. air horns, banging on pots) can be effective
- Action must be persistent and consistent
- Always consider your neighbours
- Prevent damage from bat droppings by covering vehicles with a tarpaulin
- A permit is required to trim or remove trees speak to your landlord
- Reduce the availability of fruit by tying bags around developing fruit on trees and removing excess

#### 6.7 **BATS**

Kakadu is home to a number of bat species. The most obvious to Jabiru residents are the Black Flying Fox (Pteropus Alecto) and the Little Red Flying Fox (Pteropus scapulatus). Both are megabats common to the NT which are often seen in trees and flying around town. These megabats play an important role in the ecosystem and biodiversity of the Kakadu region.

Their diet consists mainly of fruit, nectar and the pollen of flowers, including eucalypt blossoms, and they pollinate many native species within Kakadu National Park.

While the two species are similar, there are some key differences relevant to Jabiru residents. Black Flying Foxes often remain in Jabiru all year round and congregate in small numbers. Little Red Flying Foxes are migratory, often spending a few months of the year in Jabiru before moving on, and congregate in very large numbers. These large camps of Little Red Flying Foxes can cause noise, damage and health concerns for Jabiru residents.

All flying foxes are protected species in the NT. Once a bat colony is established, significant disturbances to them by humans can breach Australian environmental law. However, Jabiru residents can deter bats from roosting in trees, as long as the bat colony does not have young and provided that actions taken do not harm the bats.

Deterrents such as noise and sprinklers can be effective in this. Residents wishing to retain a bat-free yard are encouraged to look out for 'scout' bats (the first of the colony to identify suitable roosting trees) and to deter them frequently until they move on. In Jabiru, trees cannot be trimmed or removed without a permit from Parks Australia. Residents can contact their landlord if they think such action is required.

#### **HEALTH RISK**

Like all Australian bats, flying foxes have the potential to carry Australian bat lyssavirus (ABL), a virus similar to rabies which causes a serious and usually fatal disease in humans. It is estimated that between 1% and 7% of bats may carry this virus.

ABL can be transmitted from bats to humans when infected bat saliva enters the human body, usually by a bite or scratch, but also by getting bat saliva in the eyes, nose or mouth (mucous membrane exposure) or onto a pre-existing break in the skin.

Coming into contact with bat faeces, urine or blood does not pose a risk of exposure to ABL, nor do living, playing or walking near bat roosting areas.

There have been only three documented cases of ABL infection in humans, all three of these were in Queensland and all cases have died. To avoid ABL, Jabiru residents are advised to always take the following precautions:

- Do not handle bats, even if they are injured
- If bitten or scratched by a bat, wash the wound thoroughly for a minimum of 5 minutes with soap and water, apply antiseptic and seek immediate medical advice
- If bat saliva comes into contact with your eyes, nose or mouth, or a pre-existing break in your

skin, flush the area thoroughly with water for several minutes and seek immediate medical advice

- Contact Jabiru Health Centre on 8979 2018 or the Centre for Disease Control in Darwin on 8922 8044 immediately following any bat exposure as you may require rabies vaccination
- If you find a sick or injured bat, or a bat on the ground, contact Parks on (08) 8938 1120.

## **Education**

Jabiru Area School P: (08) 8938 3333 E: jabiru.areaschool@education.nt.gov. au Jabiru Principal: Amy Tambling

#### 7.1 JABIRU AREA SCHOOL

Jabiru Area School offers a unique education experience for students from Preschool to Year 12. They provide a comprehensive curriculum that meets the diverse needs and interests of its students. 'The future is now' is Jabiru Area School's mission and through their values of care, creativity and challenge they strive to foster a love for learning and encourage all students to reach their full potential. A variety of pathways are offered to students in the senior years through dual enrolment at Northern Territory School Of Distance Education and Jabiru Area School managed Vocational Education Training opportunities.

Jabiru Area School not only focuses on academic achievements but also has a strong emphasis on embracing the unique culture and history of the local Indigenous communities. It recognises the significance of the Mirarr people, whose land students live and learn on, their culture. The school emphasises cultural awareness and understanding through the Kakadu Curriculum, Kakadu National Park's Junior Park Panger program and vast opportunities for learning on country.

The school boasts a large campus with resources to support effective teaching and learning. From well-equipped classrooms to specialised facilities for subjects such as science, technology, and the arts, Jabiru Area School provides a conducive environment for students to explore their interests and talents.

With a dedicated team of experienced teachers and staff, Jabiru Area School ensures a supportive and inclusive learning environment where every student feels valued and encouraged to achieve their goals. The school strives to create a strong sense of community and encourages open communication with parents and caregivers, ensuring that the education provided meets the needs of the students.

The school also offers student-centred support programs for both boys and girls. Clontarf Foundation exists to improve the education, discipline, life skills, self-esteem and employment prospects of young Aboriginal and Torres Strait Islander men. Clontarf support young men from Year 3 to 12. Stars Foundation provides a holistic program that supports Indigenous girls and young women to attend and remain engaged at school, complete Year 12 and move into work or further study. They support young women from Years 3 to 12.

There are established productive partnerships with Caulfield Grammar School, Gundjeihmi Aboriginal Corporation, Energy Resources of Australia, Parks Australia and West Arnhem Regional Council that collectively enable the school to provide greater opportunities, better resources and flexibility to deliver more engaging curriculum and school to work pathways.

Overall, Jabiru Area School is a hub of learning, where students are provided with a well-rounded education, embracing academic, cultural, and personal development. It plays a vital role in the community by moulding future leaders and nurturing students to become responsible and positive contributors to society. Please phone to make an appointment with the Principal or Assistant Principal to look around the school and enquire about enrolment.

#### **10.9 BUSHWALKING**

There are many clearly marked and well-maintained walking tracks throughout Kakadu National Park showcasing a wide variety of natural and cultural features. These walks vary in length and difficulty, from short, wheelchair-accessible paved tracks and boardwalks, to more strenuous day walks through rugged country. Some of these walks may only be open at certain times of the year. For information and advice about these walks:

- Visit http://www.parksaustralia.gov.au/kakadu/do/walks. html
- Download Kakadu National Park's Visitor Guide at http:// www.parksaustralia.gov.au/kakadu/pub/visitor-guide.pdf
- Visit Bowali Visitor Centre

Extended overnight bushwalks are also available for very experienced bushwalkers. They are unmarked and very physically demanding, requiring excellent navigation skills and a high level of fitness. Due to safety and cultural reasons, a permit is required for anyone intending to undertake an overnight bushwalk. For more information about this process and approved routes, contact the permits section at Kakadu National Park.

#### 10.10 CAMPING

Throughout Kakadu, there are a range of campgrounds with various levels of facilities, from generator zones, hot water showers and swimming pools, through to bush camping areas with no potable water or waste disposal. Some campgrounds are commercially operated, while others are managed by Kakadu National Park. Some of the more remote bush camping sites require a permit. For more information:

- Gundjeihmi Aboriginal Corporation (GAC)
- Gundjeihmi Aboriginal Corporation Jabiru Town
- Djabulukgu Aboriginal Association
- Warnbi Aboriginal Corporation
- Djigardaba Enterprise Aboriginal Corporation
- Red Lily Health Board

Gundjeihmi Aboriginal Corporation (GAC) is an organisation established, managed and controlled by the Mirarr people who are the Traditional Aboriginal Owners of the land on which Jabiru is located as well as other areas within Kakadu National Park, including the Ranger Project Area and the Jabiluka Mineral Lease. The GAC has developed long-term economic strategies to assist Mirarr post-mining and is involved in many aspects of community development.

Gundjeihmi Aboriginal Corporation Jabiru Town holds the township lease over Jabiru. It is an Indigenous corporation whose members are the Mirarr People, the Traditional Owners and Native Title Holders for Jabiru. GACJT manages the Jabiru Township on behalf of Mirarr Traditional Owners and is the key decision-making body for developments across the Township area. This is done primarily through the issuing of sub-leases and licences for the many businesses

#### 14.2 OPAL FUEL

Opal Fuel is available from the Jabiru service station. Jabiru residents should note that only vehicles using diesel or Opal fuel may be taken into areas affected by the Volatile Substance Abuse (VSA) Prevention Act. These areas do not include the Jabiru townsite. However, even if a Management Plan is not in force, it is important that residents and visitors use volatile substances responsibly. The following practices are recommended:

- Use Opal fuel when and where available.
- If Opal is not available use lockable fuel cap or diesel powered equipment.
- Secure inhalants and fuel-powered equipment.
- Lock up aerosols, glues and other substances that may be abused.
- Remove or safely dispose of all glues, paints, aerosols and other inhalants when leaving a community.

Information on the requirements of VSA management plans and the areas affected can be found on the NT Department of Health website: www.health.nt.gov.au/Alcohol\_and\_Other\_ Drugs/Volatile\_Substances/Gazetted\_Management\_Areas\_ and\_Plans/

### Government

#### **19.1 WEST ARNHEM REGIONAL COUNCIL**

West Arnhem Regional Council covers an area of almost 50,000 square kilometres across West Arnhem Land, encompassing five remote communities, including two islands and more than 100 homelands. Our communities are all uniquely different and are rich in natural landscapes scattered across salt and fresh water, stone country and within the World Heritage listed Kakadu National Park. Situated on Aboriginal-owned lands, the West Arnhem region is culturally important where art, language, ceremonies, customs, kinship and caring for country are fundamental parts of everyday life. It is also an environmentally significant part of the Northern Territory which attracts residents and tourists alike to Kakadu and Garig Gunak Barlu National Parks and deep into Arnhem Land.

#### West Arnhem Regional Council incorporates:

Jabiru, situated in Kakadu National Park

Gunbalanya (Oenpelli)

Warruwi, South Goulburn Island

Minjilang, Croker Island

Maningrida

The population of West Arnhem Land is approximately 7000 people and more than two thirds of those residing in the region identify as Aboriginal and Torres Strait Islanders Peoples.

West Arnhem Regional Council has a large operational footprint providing local government services, including community well-being, corporate and core services to the communities. It is also one of the largest employers in the region, with approximately 210 staff. Through the 12 Elected Members, who represent Kakadu, Gunbalanya, Maningrida, Warruwi and Minjilang wards, Council plays a large role in advocacy and representation for the people residing in our communities.

West Arnhem Regional Council's main focus is building stronger communities - working in partnership with community towards providing meaningful employment and economic opportunities, delivering outstanding customer service and infrastructure. These include waste management, maintaining parks and gardens, and roads. As well as core services, the council delivers a range of community and commercial services.

#### **OUR VISION**

'Strong Communities. We achieve our goals together by walking in both worlds.'

#### **OUR PURPOSE**

We work in partnership with community towards providing meaningful employment and economic opportunities, delivering outstanding customer service and infrastructure.

#### **OUR SERVICES**

West Arnhem Regional Council is committed to providing local government services that improve employment opportunities, health and wellbeing of its residents and create opportunities for youth.

Providing a number of essential services is the core of our council. Many of these services relate to day-to-day activities in our towns and communities.

WARC also provides offers community care services in the region including aged care and disability services. The staff are able to assist with shopping, cultural activities, transport, personal care, domestic assistance and social support.

WARC also provides commercial services including childcare services, Commonwealth agency services (including Centrelink), Australia Post, aerodrome reporting services, Power and Water, retail services, and visitor accommodation services in some communities.

#### WORK WITH US

WARC is one of the largest employers in the region with more than 209 employees and around 62% are Indigenous staff (as of 30 June 2024).

Our people are essential to maintaining a workplace culture that is dynamic, diverse and inclusive. At WARC we value differences, and create an environment where people can feel comfortable bringing their authentic selves to work. With a strong emphasis on local employment, our Council is committed to providing apprenticeships, professional development and formal qualification opportunities for all of our employees.

Check out our website: www.westarnhem.nt.gov. au

#### **COMMUNITY ENGAGEMENT**

West Arnhem Regional Council's vision is to build strong communities with the leadership, capacity and opportunities for improved employment, health and wellbeing.

WARC is committed to achieving this aim through directly engaging in partnerships within our communities. Our partnerships support civic and cultural events, arts and heritage, business and health initiatives, and provide youth, sport and recreational activities.

### **Closure** and rehabilitation of a former asset

#### 20.1 ABOUT ENERGY RESOURCES OF AUSTRALIA (ERA)

Energy Resources of Australia (ERA) operated the former Ranger uranium mine, Australia's longest continuous uranium mine surrounded by, but separate from, Kakadu National Park in the Northern Territory.

The former Ranger uranium mine lies within the 79 square kilometre Ranger Project Area, which is located eight kilometres east of Jabiru and 260 kilometres east of Darwin, in the Northern Territory of Australia. ERA ceased mining operations in 2012 and continued to process stockpiled ore until 8 January 2021, when the Ranger Authority required processing to cease. The sale of the last drum of uranium oxide was made in May 2022. The Ranger Project Area is now being progressively rehabilitated.

Under the Ranger Authority ERA must rehabilitate the Ranger Project Area to establish an environment similar to the adjacent areas of Kakadu National Park so that, in the opinion of the Minister with the advice of the Australian Government's Office of the Supervising Scientist Branch, the rehabilitated area could be incorporated into the Kakadu National Park, providing this aligns with the Mirarr Traditional Owners wishes.

In April 2024, ERA announced that it had appointed Rio Tinto to manage the Ranger Rehabilitation Project under a new Management Services Agreement (MSA). Under the MSA, Rio Tinto agreed to manage all aspects of the rehabilitation of Ranger, including project management and execution of all rehabilitation activities. Rio Tinto took responsibility for management of the Ranger site on ERA's behalf from 3 June 2024.

ERA will continue to directly manage its commitments in Jabiru, corporate and financial affairs, assets and governance, including the Jabiluka mineral lease renewal.

The ongoing rehabilitation activities on the Ranger Project Area are undertaken according to an authorisation granted under section 41 of the Atomic Energy Act 1953 (the Ranger Authority). Under the terms of the current Ranger Authority, ERA's rights to access, occupy and use the Ranger Project Area continue until 8 January 2026. This Act was amended in November 2022, with negotiations continuing for a new Ranger Authority that allows rehabilitation works to continue past 8 January 2026.

## Jabiru Masterplan

#### **21.1 THE MASTERPLAN**

After a 20-year Native Title claim, non-exclusive native title rights were determined to still exist in parts of the town of Jabiru.

Once the previous tenure between the Director of National Parks and the Jabiru Town Development Authority expired on 30 June 2021, the Granting of Jabiru to the Kakadu Aboriginal Land Trust, and a s19A Township Lease to the Mirarr, was a mechanism of recognising this native title.

On Saturday 26 June 2021, a ceremony in Jabiru was held to hand over the formal deed of grant of Jabiru to the Kakadu Aboriginal Land Trust, marking the return of Jabiru to the Mirarr Traditional Owners. The Township is now managed by Gundjeihmi Aboriginal Corporation Jabiru Town (GACJT) through a s19A township lease. All land-related queries/approval requests should be directed to GACJT at <u>subleasing@</u> <u>gacjabiru.com.au</u> or by attending its office in the Regional Training Centre at 1 Van Delft St, Jabiru.

With the cessation of mining in the region and in recognition of the significant impact this will have on both the town and on Kakadu National Park, the Mirarr now take their place in leading the future management and development of the town. The long-standing aspirations of the Mirarr people are set out in the Jabiru Masterplan. Download here: <u>A. Jabiru Masterplan (2018 2021).pdf</u>

The Jabiru Masterplan conceptualises the vision of the Mirarr Traditional Owners of Jabiru as "A world leading ecologically sustainable, economically and socially vibrant community where traditional Aboriginal culture, all people and the natural environment flourishes."

The Australian and Northern Territory Government's commitment to Jabiru and Kakadu National Park is reflected in the combined \$351.7 million of funding that was assured in 2019.

This funding is pivotal in achieving the objectives of the Jabiru Masterplan to make Jabiru an Aboriginal owned, sustainable national park tourism town that celebrates its cultural heritage and provides employment opportunities for Aboriginal people as well as encourage education and research in the region.

#### **Bininj Kunwok** mini-phrasebook for beginners and visitors

Bitting Manusok ("people's languages") such as Kandjeyland and Kanwin/kn are spoken in Jahimi. Ganhalaron and surrounding areas. Why not start mying some of the words and phrases here with the Binny (Indigmous people) you ment or work with?

Note there are many variations to the words and plumes listed here, including 'an-/man-'(e.g. 'amme') 'mamme' for 'food') and whether 'ng 'is pronounced at the beginning of some words (e.g. the female skin groups overleaf). Also, you may see the same words spelt differently on signs within Kakada National Park as they were used under an old spelling system. Search online for 'Bininj Kurwok Regional Language Centre' to find our website and Facebook page. To give freelback, silk a question or help our work maintaining indigenous languager in Kakacha and western Arobem Land then email: bininjlearwork/jgmail.com. ### CYCLONE PREPAREDNESS & SAFETY PROCEDURES

#### **BEFORE THE CYCLONE SEASON**

- Check with your local council to see if your home has been built to cyclone standards
- Check that the walls, roof and eaves of your home are secure
- Trim treetops and branches well clear of your home (get council permission)
- Preferably fit shutters, or at least metal screens to all glass areas
- Clear your property of loose material that could blow about and possibly cause injury or damage during extreme winds
- In case of storm surge/tide warning or other flooding, know your nearest safe high ground and the safest route to it
- Prepare an emergency kit containing
  - a portable battery radio, torch and spare batteries;
  - water containers, dried or canned food and a can opener;
  - matches, fuel lamp, portable stove, cooking gear, eating utensils; and
  - a first aid kit and manual, masking tape for windows and waterproof bag
- Keep a list of emergency phone numbers on display
- Check neighbours especially if recent arrivals, to make sure they are prepared

**NOTE:** Managers of resorts, hotels, motels, and caravan parks should take steps to ensure visitors are aware of the dangers and know what to do in the event of a cyclone. Free protecting caravans pamphlets are available from your State/Territory Emergency Service.

The information in this checklist was prepared by Emergency Management Australia in consultation with State/ Territory Emergency Services to help protect you and your property.

#### CYCLONE THREAT

If Jabiru is under threat the siren will be activated at least two hours prior to the threat. The siren will sound for one minute then stop.

People will have to decide whether to remain in their homes, current location or evacuate to the community cyclone shelter.

#### WHEN A CYCLONE WATCH IS ISSUED

- Re-check your property for any loose material and tie down (or fill with water) all large, relatively light items such as boats and rubbish bins
- Fill vehicle fuel tanks. Check your emergency kit and fill water containers
- Ensure household members know which is the strongest part of the house and what to do in the event of a cyclone waring or evacuation
- Tune to your local radio/TV for further information and warnings
- Check the neighbours are aware of the situation and are preparing
- For weather information and updates go to www.bom.gov.au
- Check the Northern Territory Government's emergency information website SecureNT at https://securent.nt.gov.au/

#### WHEN A CYCLONE WARNING IS ISSUED

- Collect children from school or childcare centre and go home
- Park vehicles under solid shelter (hand brake on and in gear)
- Put wooden or plastic outdoor furniture in your pool or inside with other loose items
- Close shutters or board up or heavily tape all windows. Draw curtains and lock doors
- Pack an evacuation kit of warm clothes, essential medications, baby formula, nappies and important papers in waterproof bags to be taken with your emergency kit. Large/ heavy valuables could be protected in a strong cupboard
- Remain indoors (with your pets). Stay tuned to your local radio/TV for further information
- Check the Northern Territory Government's emergency information website SecureNT at https://securent.nt.gov.au/

#### **ON WARNING OF LOCAL EVACUATION**

- Based on predicted wind speeds and storm surge heights, evacuation may be necessary
- Official advice will be given on local radio regarding safe routes and when to move
- Wear strong shoes (no thongs) and tough clothing for protection
- Lock doors, turn off power, gas and water, take your evacuation and emergency kits
- If evacuating inland (out of town) take pets and leave early to avoid heavy traffic, flooding and wind hazards
- If evacuating to a public shelter or higher location, follow police and State/Territory Emergency Services direction
- Leave pets protected with food and water

CYCLONE WATCH

EVACUATION

#### WHEN THE CYCLONE STRIKES

- Disconnect all electrical appliances. Listen to your battery radio for updates
- Stay inside and shelter (well clear of windows) in the strongest part of the building i.e. internal hallway or bathroom. Keep evacuation and emergency kits with you
- If the building starts to break up, protect yourself with mattresses, rugs or blankets under a strong table or bench or hold onto a solid fixture, e.g. a water pipe
- Beware of the calm 'eye'. If the wind drops, don't assume the cyclone is over; violent winds will soon resume from another direction. Wait for the official 'all clear'
- If driving, stop (handbrake on and in gear) but well away from the sea and clear of trees, power lines and streams. Stay in vehicle

# AFTER CYCLONE

#### AFTER CYCLONE

- Don't go outside until officially advised it is safe
- Check for gas leaks. Don't use electric appliances if wet
- Listen to local radio for official warnings and advice
- If you have to evacuate, or did so earlier, don't return until advised. Use a recommended route and don't rush
- Beware of damaged power lines, bridges, building, trees, and don't enter flood waters
- · Heed all warnings and don't go sightseeing. Check/help neighbours instead
- Don't make unnecessary telephone calls

#### CYCLONE PREPAREDNESS AND CHECKLIST

Find out whether your property could be affected by a storm tide and surge

Have your emergency cyclone kit ready with such items as a portable radio with fresh spare batteries, torch, water containers, tinned food, tin opener, first aid kit and essential medicines, plastic bags, PLUS children's needs and important personal papers

Decide beforehand where you will shelter, either at home, in an emergency shelter or with friends or relatives. Remember that pets are not allowed in most emergency shelters. Plan for your pets' safety

Decide the route and how you will get to your shelter

Don't leave your decisions until the last moment

If you have your own transport, remember to have it fuelled and ready

Above all, heed advice broadcast by counter disaster authorities on when to take shelter

In addition, all normal cyclone preparations should be made (e.g. house security, advising relatives or neighbours of your plans etc).

### **EMERGENCY CONTACT LIST**

Record your emergency numbers in the list below, tear out this sheet and display it clearly in your home so that is is visible to all family members.
